

Kids for Change is a joint effort by Bethlehem Ministry and J'atoufa Projennou to benefit the people of northern Haiti!

Happy Mother's Day!

A goat is a gift of financial security to a woman in Haiti. In your honor, a donation or buck goat, complete with medical support, for a poor woman in Haiti. The goat provides milk, it reproduces, and it is a savings account for a rainy day. Women in a small area organize into informal cooperatives, owning their own goats, but supporting each other in their care. The sense of community engendered among these women is a further benefit of the program.
